

All-In-One Retail POS Scale

An advanced integrated POS and Retail Weighing Scale System unleashing exceptional performance and efficiency.

Model: RM5800EC151015NR

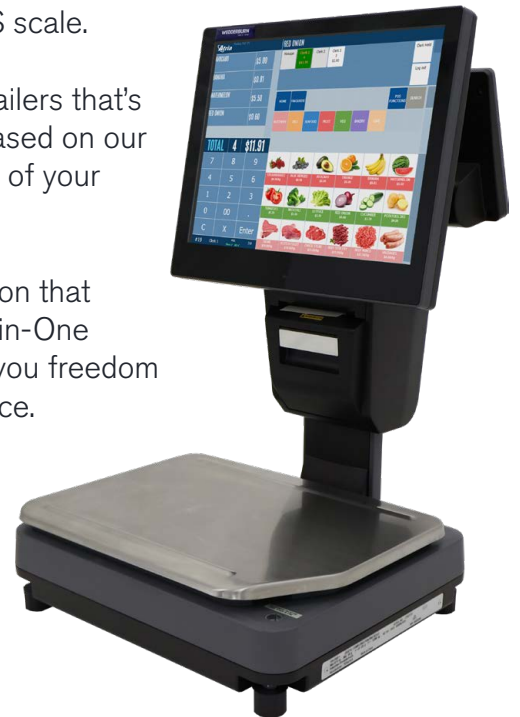

Unleash the potential of Wedderburn's Atria POS software seamlessly integrated into the DIGI all-in-one RM5800 POS Scale for unparalleled performance and efficiency.

Get the best of both worlds by combining Wedderburn's Atria POS software with the space-saving DIGI RM5800 All-in-One, NMI trade approved, POS scale.

Atria Point of Sale System is a unique POS solution for fresh food retailers that's user-friendly, flexible and modern. It was developed by Wedderburn based on our extensive industry experience and is designed to grow with the needs of your business.

Atria Management System is a web-based back office software solution that provides insightful reports and enables easy management of your All-in-One RM5800 POS System. Adding the optional My Access feature gives you freedom to manage your store at any time from almost anywhere with any device.

COMPACT & POWERFUL

A compact and attractive design packed with power.

Experience revolutionary power coupled with our space-saving design. Unlike traditional POS systems that clutter your counter with multiple power and data cables for the POS, scale and printer, the all-in-one RM5800 simplifies your setup with just one power cable and one data cable. Say goodbye to messy tangled cables and hello to seamless efficiency.

OPERATE ONLINE AND OFFLINE

No network, no worries! Don't let connection issues interrupt trade.

Powered by Atria POS, you can continue to operate without a local network or internet connection. Once the connection is restored your transactions will be automatically synced.

CUSTOMISABLE POS SCREEN

User-friendly operation for a quick checkout process.

Allocate images to buttons to make it easier for operators to quickly identify products. Use product groups to simplify screens and create your own favourites screen.

Specifications may change without notice

CRYSTAL CLEAR ADVERTISING SCREEN

Increase revenue through targetted cross-selling and upselling messages.

Captivate customers with highly relevant and perfectly positioned advertising. The 10 inch TFT customer facing display delivers bright clear imagery to grab your customers attention and maximise cross-selling or up-selling opportunities.

TRAINING MODE

Train staff quickly and minimise supervision time

Get staff up to speed quickly with real examples. Clerks in training mode can utilise Atria POS like normal however the transactions aren't reported on.

EXTENSIVE TARE CAPABILITIES

Ensure you've got the right weight every time

Operators can override a predetermined tare value from an item or manually key in the tare value during operation. Configure pre-set tare keys to match packaging. Subtract multiple tares simultaneously with our unique multi tare feature.

EFTPOS INTEGRATION

Quick, reliable and secure payment experience

Eliminate the potential for human error. Atria POS integrates with Tyro and Linkly which is supported by all major Australian banks. The EFTPOS transaction is displayed on the POS receipt meaning your customer receives all details on just one receipt.

CRM

Make the most of customer data to help grow your business

Take control of your retail and wholesale customer data. Get insights into what customers are purchasing and in what quantities then reward your loyal customers with special price levels and discounts to encourage repeat business.

WEB BASED MANAGEMENT

Have control over your business from anywhere at any time.

Atria's web based management gives you the freedom to manage your store from anywhere. Change pricing and check how your store is trading on any device with an internet connection.

CASHING UP

Cash off quickly at the end of the day

A coin counting feature allows you to eliminate time consuming recounts when a scale is connected to Atria POS. Track cash flow for each shift and reduce error, theft and discrepancies. Restrict operators from accessing end of day functions using clerk permissions.

NATIONAL MEASUREMENT INSTITUTE (NMI) COMPLIANT

Trade by weight with confidence.

The DIGI RM5800 POS Scale is approved by NMI for trade use in Australia and Atria POS has full supplementary certificate of approval from the NMI - NMI M7
